

ASHISH SHARMA

Vaishali, Bihar, India

+91 7991182710 ashishsharma.bhumca22@gmail.com linkedin.com/in/ashishsharmase

Education

Banaras Hindu University

July 2022 – July 2024

Master of Computer Applications (MCA), CGPA: 8.80/10

Banaras, India

Experience

Xenonstack [Onsite]

February 2024 – Present

Associate Software Engineer – Agentic AI Team

Mohali, India

- Completed a 6-month internship covering AI workflows and modules in data engineering (Spark, Kafka), backend (Go), frontend (React), test automation (Selenium), and containerization (Docker, Kubernetes); qualified for probation by delivering 5+ internal projects.
- Annotated 1,000+ images and trained YOLOv8 object detection models for wine bottle classification, achieving 95% accuracy (15% improvement over baseline).
- Designed and deployed 3+ PoC AI agents with LangGraph and LangChain, collaborating with international clients for 5+ demos and iterative feedback.
- Developed a conversational agent for a telecom client using Google A2A and MCP, plus a GUI-Agent system to update CRM data, reducing manual debugging by 30%.
- Generated 1,000+ custom Q&A pairs from policy PDFs and fine-tuned Phi-4 and Gemma LLMs on 10k+ samples to align outputs with compliance requirements.
- Automated invoice processing for a logistics client using AWS Textract and Playwright, cutting manual data entry by 40% and boosting throughput by 2x.
- Created a security ops agent for cloud incident response and zero-trust containment, securing AWS resources across 5+ deployments.
- Authored 30+ technical blogs and delivered 3+ PoC demos to global clients, strengthening customer trust and visibility.

Code Alpha [Virtual]

August 2023 – September 2023

Web Development Intern

- Engineered full-stack modules for 3+ web pages using HTML, CSS, JavaScript, and the MERN stack, supporting 100+ daily user interactions.
- Integrated 5+ third-party modules (e.g., payments, OAuth, file storage) boosting site functionality and increasing user engagement by 30%.
- Utilized Git for version control with 20+ commits and 5+ pull requests, streamlining team workflows and deployments.

Projects

AI Resume Matcher | Python, Streamlit, Scikit-learn, NLTK, PyPDF2

May 2024

- Architected an NLP-powered tool parsing 100+ resumes (PDF) and matching them to job descriptions using Scikit-learn and fuzzy string algorithms.
- Implemented keyword extraction and synonym detection with NLTK, boosting skill match accuracy by 20%.
- Constructed an interactive Streamlit dashboard with charts for 5+ key metrics and actionable improvement tips.

Instagram Clone | MongoDB, Express.js, React, Node.js

March 2024

- Crafted a full-stack Instagram-style web app supporting 50+ daily posts, comments, and likes using the MERN stack.
- Implemented secure user authentication and real-time updates for 5+ social features (likes, comments, follows).
- Enabled image uploads and content feeds with 100% uptime during testing.

Achievements and Certification

- Solved over **500+ coding challenges** across multiple platforms, demonstrating expertise in algorithm design and optimization.
- MongoDB Certification — **Skill Academy** (June 11, 2023)
- Server Side Programming with Node.js Certification — **Skill Academy** (June 16, 2023)
- JavaScript Certification — **Skill Academy** (April 12, 2023)
- Earned the **Azure AI Engineer Associate** certification, validating skills in designing and deploying AI solutions on Microsoft Azure.

Technical Skills

Languages: Python, JavaScript, Go, SQL, C++, Java
Backend: Node.js, Express.js, FastAPI, Flask, Gin, MongoDB, PostgreSQL, REST APIs
AI/ML: LangChain, LangGraph, NLTK, Scikit-learn, YOLOv8, PyTorch, TensorFlow, spaCy, RAG, Vector DBs, NLP, MLflow, vLLM
DevOps/Tools: Docker, Kubernetes, Git, CI/CD, AWS, Azure, Playwright, Selenium, Streamlit, Postman, Pytest
